

The Ancient Romans adapted the idea of Greek Columns into their own style of architecture & based on that style the Romans created what is known now as Tuscan Columns. Round Fiberglass Columns feature the Tuscan Cap and Base. The Columns are a three piece unit comprised of the Round Tapered Shaft with Tuscan Top Cap and Base Cap.

Round Columns are hollow and are considered decoration only; for structural support a 3" x 3" square post is installed inside the Column which carries the load but cannot be seen once installation is complete.

**Fiberglass Tapered Columns
Smooth or Fluted
Tuscan Cap & Base**

Columns do not come painted and need to be painted by customer; we have most paint codes available to match up paint which can be purchased at Lowe's or Home Depot.

Column Diameter	Outside Dia.		Inside Dia.		Plinth		Base Molding		Total					Total
